Boston Consulting Engineers, Inc. (BCEI) is a leading provider of engineering and construction services. We are currently seeking a highly motivated and experienced **Senior Project Engineer** to join our team. The ideal candidate will have a strong background in civil engineering, with a focus on infrastructure projects such as bridges, roads, and water supply systems. This role involves managing the design, construction, and maintenance of these critical infrastructure assets. The position requires a minimum of 10 years of professional experience in a similar role, a degree in civil engineering from an accredited institution, and a valid Professional Engineer (PE) license in the state of Massachusetts. Key responsibilities include: leading project teams, conducting field inspections, preparing technical reports, and ensuring compliance with all applicable regulations and standards. If you are a detail-oriented professional with a proven track record in infrastructure engineering, we encourage you to apply. Please submit your resume and cover letter to careers@bcei.com. BCEI is an equal opportunity employer. We value diversity and are committed to creating an inclusive work environment for all employees.
